Careers in the Healthcare Access Representative pathway are focused primarily on patient information management. Health professionals in this pathway work directly with patients and other healthcare professionals and may provide care, counseling and health education information. Workers in the Health Science industry must have a solid background in math, science, communications and technical skills. Please visit gacollege411.com for more information about education, career planning and financial aid.

This is a College Pathway. Students must be admitted to Athens Technical College prior to entering this pathway (students must apply to ATC and pass the Compass entrance exam or submit required SAT or ACT scores). Upon successful completion of the courses in this pathway, students will earn a Technical Certificate as Office Accounting Specialist (OA31).

Please note that this is intended as a guide and is not exhaustive.
