<u>Update or Create</u> <u>Parent Portal</u> <u>Account</u>

With a new school year quickly approaching, it's a great time for parents and guardians to make sure all of their contact information is up to date in Infinite Campus, CCSD's student

information system. This will help ensure that CCSD and our schools send out communication notices to the correct home addresses, email addresses, and phone numbers.

Follow <u>these directions</u> for updating the contact information in your <u>Parent Portal account</u>. Don't have an account yet? Follow <u>these directions</u> to set one up. Having a Parent Portal account allows parents and guardians to access attendance records, class schedules, grades, and assignment information for their students.

If you already have an account but forgot your password and need a reset, use the links on the <u>login page</u> to reset your password or username or to request help. You may also email campus@clarke.k12.ga.us for additional assistance.

Remember: If you have moved and have a new home address in a new school zone, you must go to the Student Registration Center to update your student's registration. Click here for more information.
