*In order to complete this pathway, one of the courses must be taken at the Advanced Placement (AP), International Baccalaureate (IB) or dual enrollment level.

Students in social science courses develop the abilities to use oral and written communications, foster interpersonal and team work relationships, organize concepts/ideas and resources, demonstrate technical and analytical skills and apply critical thinking and problem-solving skills. Utilizing a variety of research methods to collect and analyze data, students in social sciences integrate scientific methods with the study of humans in societies/cultures. The level of education needed for careers in the social sciences depends on the student's career focus. Please visit gacollege411.com for more information about education, career planning and financial aid.
