Low-cost wireline home Internet service availability and speed may vary by address. AT&T will assign you the fastest of these speeds tiers* available where you live: 10 megabits per second, for \$10 per month; 5 megabits per second, for \$10 per month; or 3 megabits per second, for \$5 per month.** If none of the above speeds are technically available at your address, you will not be able to participate in the Access program from AT&T.

This program requires you to re-certify your eligibility annually. AT&T will notify you, in advance of your annual re-certification date, to re-certify. If you do not complete the required steps by the specified date and do not notify us of your intent to cancel service, we will remove your program discount and bill you at current market rates.
