Bus Transportation App

The Edulog Parent Portal mobile app provides the latest information on the planned time and location of the student's school bus stop. It can show the school bus position and give an alert as the bus nears the bus stop.

Download the Edulog Parent Portal from the Google Play Store or the Apple App Store. Search for "Edulog Parent Portal" and choose the app with the blue/white icon.

Once you have the app downloaded, sign up using your email address. Make sure you have the student name, DOB, school, and student ID number (from Infinite Campus). [Click here](#) for additional information.
